

BITEC

BPO - IT EMPLOYEES' CONFEDERATION

Dear Friends,

You all are aware that IT industry has put India prominently on the global map. IT industry in India is worth USD 118 billion in 2014. IT & ITES has 8.1% share in national GDP. The industry crossed US\$100 billion in 15 years and is expected to reach US\$ 200 billion in next 5 years. Millions of jobs are created in IT & ITES & it is the largest private sector employer. The increasing opportunities in IT & ITES are changing lives in India

This presents a rosy picture of the industry in the years to come. But would the same scenario be for the employees working in the IT industry? The challenges before them are many. Job security being predominant among them. Decent working hours, fair wages linked to the profitability of the company and an opportunity for continuous skill up gradation. This would require for the employees to get organised and have voice of their own.

A unique opportunity has now opened up for the employees working in the IT industry in the form of BITEC. BITEC – BPO & IT Employees Confederation is formed exclusively for & by the IT & ITES employees. BITEC , a registered organisation , has been inaugurated on Saturday,10th May 2014 in Mumbai.

We appeal to all our sisters and brothers working in BPOs, Call Centres and in IT related companies to take that one step with courage and conviction to make BITEC truly your own voice in the industry and for the industry.

BITEC BELIEVES IN A BETTER TOMORROW D. A. S. H

DEVELOPMENT of Employees and Contribution to the growth of IT sector.

AWARENESS about Legitimate working rights and Occupational Hazards.

SUPPORT through Training programs and Interactive Sessions.

HARMONIOUS Employee-Employer Relations.

Ajit Sawant
President
